Education

Vivekananda Institute of Professional Studies — Technical Campus	Aug 2024 – July 2028
B.Tech (IIOT)	CGPA: 9.17
Geeta Vidya Mandir Public School, Panipat	Apr 2023 – Mar 2024
CBSE Class XII: 86.2%	

Skills

Languages: Java, JavaScript, TypeScript, Python, C++, SQL
Frameworks: Node.js, Express.js, Spring Boot, React.js, React Native, Angular, Tailwind CSS
Databases: MongoDB, MySQL, Redis
Tools: Git, GitHub, Postman, Cloudinary, Vercel, Render, AWS
Core CS: DSA, OOP, DBMS, OS, Computer Networks

Experience

Software Development Intern — Infosys Springboard	Jul 2026 – Sep 2026
- Engineered a full-stack Civic Complaint Management System using Angular, Spring Boot, and MySQL with secure JWT authentication and role-based authorization. - Designed and implemented RESTful APIs for complaint registration, assignment, status tracking, and dashboard analytics while optimizing MySQL queries for improved performance.	
Software Intern — DRDO, SSPL	Jun 2026 – Aug 2026
- Developed a budget management platform for expenditure tracking, budget allocation, and financial record management, enabling efficient handling of organizational financial workflows. - Developed scalable backend modules in collaboration with research teams.	
Summer Research Intern — IIIT Delhi	Jun 2025 – Aug 2025
- Engineered Python data-processing pipelines to analyze 10,000+ physiological sensor records for healthcare applications. - Built reusable preprocessing utilities for healthcare research datasets.	

Projects

Streamify – Full-Stack Video Streaming Platform	GitHub Live
React.js Node.js Express.js MongoDB Redis Cloudinary JWT Vercel Render	
- Architected and developed a production-ready MERN video streaming platform featuring JWT authentication, Cloudinary media storage, playlists, watch history, and creator dashboards. - Designed scalable RESTful backend services using MongoDB aggregation pipelines, Redis caching, pagination, and rate limiting, then deployed the application on Vercel and Render.	
SkillForge AI – AI-Powered Personalized Learning Platform	GitHub Demo
React Native Python Flask TensorFlow Gemini API Firebase	
- Developed an AI-powered personalized learning platform integrating Gemini API, TensorFlow, Firebase, and React Native to generate adaptive learning roadmaps and interview preparation plans. - Designed ML recommendation workflows by preprocessing educational datasets and deploying an end-to-end Android application.	

Achievements

- Winner** – Qualcomm Multiverse Hackathon (**30,000+ participating teams**) and **Top 100 Finalist** – IIT Delhi College Youth Ideathon 2025 (**13,000+ participating teams**).
- Achieved top finishes as a **Winner, Runner-up, and Finalist** across multiple national-level hackathons.
- Selected as a **Google Gemini Student Ambassador 2026**, leading AI workshops and developer community initiatives.

Additional Information

- Solved **150+** Data Structures and Algorithms problems on LeetCode, strengthening problem-solving.
- Published **3 patents** in the domains of Artificial Intelligence and Intelligent Systems.
- Contributed to open-source projects through Git-based collaboration, issue resolution, feature implementation, and technical documentation.
